

## About us

The diving operation of Zanzibar Watersports Limited is a PADI 5\* IDC Centre, Gold Palm Resort, and DAN Safety Partner. Based at Ras Nungwi Beach Hotel for the last ten years we have been one of the leading dive centres in East Africa and have established and maintained a reputation for excellence in diving. Now our second dive centre has opened at Paradise Beach Resort in the middle of Nungwi and we are happy to keep setting the standards for other dive centres to follow. Our commitment to safety is best demonstrated by Zanzibar Watersports 100% safety record and the local re-compression chamber benefits from both the supply of operators and financial support from our company.

Our personal and professional service and willingness to go the extra mile ensures our guests always leave happy. Our multi-lingual, international instructors are all experienced, have worked world wide in many different countries and all understand the need for standards to be maintained. The boats are manned by local captains who have sailed these waters for years and know the area better than anyone and their knowledge and experience is often called on. Safety, protecting the environment and customer service are our key concerns and they are what make us stand out from the crowd.
